

Wolftank Group Christmas Celebration 2022

The end of a year traditionally includes a look back: In 2022, the Wolftank Group has taken another step towards the future and we made our contribution to the energy transition. We have achieved a number of milestones: In the past 12 months, we have firmly continued to build the infrastructure for zero-emission mobility, developed solid partnerships, consolidated our internal structure and unified our global brand.

We all know that the current climate situation requires all of us - public institutions, companies and citizens alike - to act quickly and proactively. Thanks to our decades of expertise in the construction and decommissioning of service stations as well as in environmental services, we are well positioned to meet the challenges of our time. This crucial know-how we have accumulated ensures the solidity of our foundation and is the best prerequisite for the future.

But we know that none of this would have been possible without our employees, who have driven our business and the innovations of tomorrow. But our success is also the result of the continuous support of our investors, customers, suppliers and partners. We, the Wolftank Group management team, would like to thank you for your continued trust and loyalty.

We have all the ingredients to continue to drive the change: know-how, experience and expertise; hard work capacity and enthusiasm. We are counting on all of you to grow the Wolftank Group also in 2023 – making jointly a positive impact worldwide.

We wish you a beautiful holiday season and a happy New Year!

All the best,

The Wolftank Group management team

The whole Wolftank Group wishes
you happy holidays!
