

ENVIRONMENTAL POLICY

Environmental Policy

Wolftank Group is committed to constantly improving its environmental performance and effectively managing its environmental impacts. These commitments are also expectations that the company has about external parties such as suppliers and contractors.

In addition, Wolftank Group educates and trains employees on environmental issues, as well as on the environmental effects of their activities. In this sense, transparent and clear communication about the environment to all our stakeholders entails that every public will review its performance and thus act consequently.

Our company is committed to:

1. Comply with environmental legislation and requirements and go beyond it, by anticipating changes.
2. Evaluate the environmental impact of our operations.
3. Reduce pollution, emissions and waste.
4. Reduce the use of all raw materials, energy and supplies.
5. Reduce the use of plastics.
6. Recycle not only in the offices but also in the working sites.
7. Buy materials and resources that come from renewable sources.
8. Encourage employees' participation in environmental matters.
9. Assist customers to use products and services in an environmentally sensitive way.
10. Liaise with the local community.
11. Participate in discussions about environmental issues.
12. Communicate environmental aims and objectives to employees and external stakeholders.
