Wolftank-Adisa Holding AG increases stake in Maremmana Ecologia Srl

Wolftank-Adisa Holding AG increased its stake in Maremmana Ecologia Srl from 65.00% to 90.20% as part of a capital increase.

"Maremmana Ecologia, with its activities in environmental protection and soil cleaning, is a very important strategic component of our Group. This promising future business area is and will become even more important for us in the future. For the next 2-3 years worldwide sales is expected to be more than 100 billion dollars alone for environmental protection and the remediation of contaminated soils" according to Dr. Peter Werth, CEO of Wolftank-Adisa Holding AG.

In the financial year 2017, Maremmana Ecologia contributed Euro 11.15 million to the group turnover of Wolftank-Adisa Group.

About Wolftank-Adisa Holding AG:

Wolftank-Adisa Holding AG is the parent corporation of an international group of companies focusing on the remediation and monitoring of (large-scale) tank farms and environmental protection services for contaminated soils and facilities. The patented application technology, based on high-tech, in-house developed epoxy resins, enables a cost-effective and rapid repair of defective tank systems, including remote monitoring.

Wolftank-Adisa Holding AG will be listed on the Munich Stock Exchange in 2018 and on the Vienna Stock Exchange in the direct market plus segment in January 2019.
