Wolftank-Adisa Holding AG announces major order in LNG (liquid natural gas) market

Innsbruck-based Wolftank-Adsia Group has been awarded several contracts as general contractor for the construction of liquefied natural gas (LNG) filling stations with the option of additional LNG stations by the Italian state-owned natural gas supplier and the largest consortium of transport companies.

The order volume is currently in the region of 4 million euros.

"We are delighted to have acquired this order and the corresponding trust from our Italian customers, which underpins our long-standing, good and trusting cooperation with them," said Dr. Peter Werth, CEO of Wolftank-Adisa-Holding.

"We expect this challenging, strategically important reference project to have very positive sales and marketing effects within the Wolftank Group in the future, especially through our activities abroad, namely in China and the Far East, where over 20,000 new LNG filling stations are planned by 2025," Dr. Werth continued.

About Wolftank-Adisa Holding AG:

Wolftank-Adisa Holding AG is the parent corporation of an international group of companies focusing on full-service engineering services for LNG and petrol station, remediation and monitoring of (large-scale) tank farms and environmental protection services for contaminated soils and facilities. The patented application technology, based on high-tech, in-house developed epoxy resins, enables a cost-effective and rapid repair of defective tank systems, including remote monitoring.

Wolftank-Adisa Holding AG (ISIN: AT0000A25NJ6; WKN: A2PBHR) is trading on the Munich Stock Exchange and is also listed on the Vienna Stock Exchange in the direct market plus segment.
